

## REMOTE RTC MANAGEMENT AND VEHICLE EXTRICATION COURSE OUTLINE

**Course Duration:** 2 day

**Suitable candidates and pre requisitions:** A comprehensive course specifically focused for individuals that may need RTC extrication and management skills in remote locations. These include MSA (motor sport association) rescue units, the MOD military as well individuals involved in vehicle extrication. This course is written and delivered by existing serving fire fighters who have all the up to date knowledge and skills, utilising the latest modern techniques.

**Method of Tuition:** Interactive theoretical tuition combined with extensive practical sessions. Although no formal assessment is given the students will be constantly monitored by the tutor on their performance.

**Course Objectives:** Provide the skills and techniques to manage and extricate a patient from an RTC, especially in remote areas with limited equipment.

**Costs (Ex VAT): £210.00**

### TOPICS COVERED INCLUDE:

- Scene Safety
- Personal Protective Equipment
- Making the vehicle safe
